Amendment 01 to Master Agreement 2023-JC-060-M

Amendment 01 to Master Agreement 2023-JC-060-M hereby executes the following change effective July 1, 2024:

- GapVax: This product line is no longer offered, therefore it is being removed from the contract.
- PipeHunter: Pricing updates.
- Super Products: Super Products has replaced GapVax as the sewer cleaning/vacuum excavation equipment line; all of their product offerings have been added to the contract in place of GapVax.
- Marrel/Ampliroll: Pricing updates.
- Bucher: Pricing updates as well as the removal of the V8oh Dual GB and Single GB models (no longer available).
- Global: Pricing updates.
- AxionLift:
 - Three bucket truck only options have been removed from the contract. MTech will only sell complete bucket truck packages and are no longer selling the lifts by themselves for customers to install on their own.
 - The AT4313i has been re-branded as the AT40, which has been changed on the price list.
 - Three new packages have been added: an AT37 lift in both aluminum and steel body options, as well as the UR29 pickup truck package.
- Cues: Pricing updates.
- Hurco: Hurco manufactures valve exercising machines and MTech has been their dealer for many years in Ohio and Michigan. MTech has recently received approval to also sell all their products in Michigan now, so all of their offerings have been added to the contract.
- Karcher/Holder: Pricing updates as well as the addition of a new sweeper called the MCM600.
- Maintainer: Pricing updates and the removal of the H5830ST package (no longer stocked).
- ODB/Xtreme Vac: Pricing updates and removal of several different models that are no longer being offered by the manufacturer (as well as the addition of one new model).

All other terms and conditions remain unchanged.
